

27th edition of Paris International Dive Show: Shopping, bargains, and tech innovation!

*Press release – October 13, 2025 – **The 27th edition of Paris International Dive Show will be held from January 8 to 11, 2026, in Paris at the Parc des Expositions – Porte de Versailles – Hall 4.***

An event eagerly awaited by professionals and enthusiasts of diving, of oceans, and nature getaways.

This year, **more than 400 exhibitors** (manufacturers, dive centers, destinations, clubs, associations, federations, etc.), **including 7% participating for the first time**, will gather in a 13,000 m² exhibition space.

Not to mention **a 200 m² swimming pool (1.2 m deep)** for introductory dives and demonstrations.

Divers can take advantage of the opportunity to renew their equipment while benefiting from **discounts of 20 to 30% offered on site**. It's a chance to meet the largest brands and specialists with cutting-edge expertise who reserve exclusive offers for the show each year.

State of the art equipment, for example:

- **52 Hertz:**

This start-up from Brittany, presents **Talky-Divy**, the first underwater voice communication device designed for divers. It has developed a universal regulator mouthpiece with a built-in microphone and bone conduction earphones, connected to a compact box. Divers can talk to each other, listen to music, and share their emotions and discoveries live.

- **Digit Access:**

And the **Insta360 camera** was created with the ambition of transforming the way experiences are shared. The company designed a 360-degree camera capable of capturing and sharing moments in an immersive and comprehensive way, going far beyond simple snapshots or limited glimpses. Since 2015, it has continued to innovate to create an even more powerful and sophisticated tool.

- **Dynamic Nord**

Innovative and functional sustainable products based on the concept of "innovation – credibility – functionality." DYNAMICNORD products combine effective protection with ease of movement, the two basic requirements for working underwater.

- **M3S**

Designs, develops, and manufactures the TRITON mechanical chest-mounted rebreather for all divers. [The TRITON is the first and only mechanical rebreather to be certified according to the CE EN14143:2013 standard for depths of up to 100m](#), with the aim of returning to the origins of the rebreather while using current technologies. Three years of research and development have led M3S to offer the smallest, lightest, and easiest-to-breathe machine on the market.

- **Suunto**

The Finnish brand dedicated to diving and outdoor activities offers a complete range of reliable, robust, and intuitive computers suitable for all types of divers—from the Zoop Novo to the Eon Core and the D5.

[The latest innovation is the Suunto Ocean](#), a technological marvel in watch form, featuring an ultra-bright AMOLED display, extended battery life, advanced multisport functions, and a new exclusive feature: Suunto is the first to allow you to view your entire dive route, so you can relive every moment of your exploration.

And as always, numerous highlights and activities:

- **Inspiring personalities** who speak out for the underwater world and its protection.
- **Unique exhibitions**, meetings with experts, destination stakeholders, scientists, and marine biologists.
- **Films, documentaries, and conferences** offering even more engagement and topics related to the silent world and its challenges.
- Fun **workshops and introductory diving sessions**, open to all.
- **Dedicated space for innovations**: responsible equipment, techniques, and new solutions for diving centers.
- **Photo and Film Contest** : **macro photography from every angle** is the theme for 2026 for amateurs and professionals alike.
- **Youth** and educational **workshops** to raise environmental awareness among young people.
- **Events and anniversaries of major players in the sector**.

So, don't hesitate...

Ticket sales have just opened with early bird offers available until October 20!
